

PHILIPS

CarePoint

Universal Transmitter

A universal transmitter can be used for monitoring doors and windows throughout your community. When a door or window is opened, the Universal Transmitter will notify CarePoint and an alert will be dispatched to staff. CarePoint will send an alarm to staff to notify when a door or window has been opened.

UL2560
Certified

Philips offers several types of monitors to be used in conjunction with the Universal Transmitter which detect when windows or screens have been opened.

Features & Benefits
